

Suggest all my decisions

The results of praying seriously this petition can be beyond surprising - almost mystical. Our days and entire lives are filled with decisions we must make. Some of these are relatively insignificant, while others are of considerable importance and have potential consequences. Decisions are all over the board and constantly before us.

Every decision we make takes us in a certain direction, even down to brushing our teeth. Each decision takes us toward an ultimate goal. It is important to establish both short term and long-term goals so we can determine what decisions we must make to arrive at the goals we establish.

Some decisions are easy to make while others can be extremely difficult. We need to be aware of the importance of making the best decisions, even when they are easy, because of where they direct us.

Decisions are vastly important, and making the best choices is so critical to our well-being that we need the best guide available to lead and direct us. Our best choice for a guide is the Spirit of God who lives within us and is always immediately available to us.

It is amazing how this daily request makes a difference in our daily lives. We can often look back on events that have occurred in our day and recognize God's active involvement. This awareness should always lead to profound gratitude.
